To Our Customers and Friends:

Another year has rolled around and once again it is time to issue our annual catalog. First of all, we want to extend greetings and best wishes for a prosperous and successful Glad year in 1956 and to thank each and every one of our customers for their patronage. We hope that we may have the pleasure of receiving your valued orders again. In keeping with our policy we are again offering a catalog that we feel sure will be of value to its readers.

Our list is comprehensive, yet concise and we have spared no efforts to bring to you gladiolus varieties from all parts of the world. These are selected and offered only after careful consideration. We feel sure that our choice will please the majority of Glad lovers.

As we chatter we will again try to evaluate the relative merits of the newer varieties we grow. These remarks are based on observation as noted in our fields. Our soil is sandy and the performance of some varieties may differ in other types of soils or in different climate. We give you this chatterbox review, however, in the hope that it will be interesting reading and that it will assist you in some small way in the selection of varieties.

WHITE — This group has many distinctive varieties. Mother Fischer and Florence Nightingale are still tops as commercial. Sierra Snow and Snowclad will win their share of ribbons at the shows. Barrett's Beauty has beautiful ruffling. Among the pleasant surprises this summer was White Autumn with its tall almost perfect spikes. In the blotched varieties it will be hard to beat White Sails and Carmine Eyes. Both are wonderful growers and able to open enough to win at any show.

CREAM — Lorelei deserves the number one spot. We were greatly impressed with the fine spikes and color, a wonderful commercial that will be a large winner at the shows. Adorable, after several years of testing, has proven without a doubt to be one of the finest introductions. The huge spikes of Good Morning are sure to catch the eye, somewhat on the order of the older Corona but a strong healthy grower. Columbia, also classified as a cream, is one of the most beautiful.

YELLOW — No change from last year in this class. Fort Knox is still the leader both for show and cutting. Prospector is one of the most beautiful of all glads. Forysthia, with its greenish sheen and tall spikes, is a favorite of ours. Gold Bank and Golden Dawn should be considered by cut-flower growers. The giant of this class is Gerber Hercules, a very tall grower and a winner at the shows.

BUFF — A. B. Coutts produces a robust plant and is certainly a welcomed addition to this class. Sieglinde from Holland is a fine variety with good clear color, making grand spikes. Daybreak, one of the finest growers, is characterized with tall spikes down the row. Polygon from Holland also consistently makes tall well-balanced spikes that are a pleasure to cut. Patrol, one of the all-time great glads, is still performing very fine.

ORANGE — Our seedling 6M6, which we are sending out as a premium bulb this season, has the finest color of all orange glads; must be seen to appreciate its beauty. Atlantic continues to be a heavy winner at the shows. Valentine with its huge spikes has been overlooked.

SALMON — King Size is just what its name implies. A king in size that can really open them up. We can heartily endorse this for a Grand Champion winner. The new Salmon Queen performed very well in its first season here, is certainly a variety of much promise and I predict it will become one of the most popular varieties. For the unusual try Boldface and Boise Belle. Both are very striking and easy growers.

SCARLET — Among the new scarlets from Holland, Allegretto and Gregor Mendel are fine varieties. Allegretto has a pleasing color and makes tall spikes. Gregor Mendel produced fine large spikes and received much praise from visitors to the garden. Welcome is very early and will become a good early commercial. The older Firelight is one we recommend as it is a fine early variety making wonderful spikes right down the row. Hilltopper, a new variety with its lustrous color, should become one of the best cut-flower varieties.

LIGHT PINK — Pink Pride certainly is the giant of this class, will open 10 and is very popular. Look again produced flower spikes of great proportions and is one of our best growers. For real pastel beauty, few varieties can equal Clarence D. Fortnam and Pink Diamond. The newer Phillippo's Memory makes a fine decorative spike and is a fine addition to this class.

MEDIUM AND DEEP PINK — The new Washington has an ethereal beauty that can be appreciated only when seen. Sweet 16 and Friendship are very popular and are lovely for florist work. The Giant of this class Benares will surprise you by producing large spikes with good placement. Alfred Nobel catches the eye with its large white throat and is certainly one of the finest Holland glads.

LIGHT RED — Fire King shows much promise as being the leader of this class, has good color and spikes. Early Red and Red Radiance are now well established in the commercial field. Both have fine color and are easy growers. For something flashy try Leah Gorham.

DEEP RED — The new Senator is recommended as a commercial. It is very early, about ten days ahead of Red Charm. Scarlet Leader is actually red and one of the pleasant surprises of the 1955 season. Festival, one of our favorites, is one you should try. Crimson Tide is one of the most heavily ruffled with extra heavy texture. These qualities, combined with good sturdy growth, make it outstanding. Few glads in past years can equal Harrisburger. It has size, color and its growing habits are good. It's going to be hard to beat this at the shows!

BLACK RED — This group is really progressing. We have two outstanding varieties in Black Joe and Blackpool. Black Joe is very early. Both make good spikes and do not fade in the sun. Attaturk is the darkest of all glads. Ace of Spade also is very dark, has a beautiful needlepoint type of floret and is heavily ruffled. Negus has richness of color and easily wins in its class at the shows. Dark David, the giant of this class, is a delight in any garden.

LIGHT AND DEEP ROSE — This class is without a question one of the most improved. Lori Dee is heavily ruffled and a fine grower. Rosannah another fine grower, will become a heavy show winner and a fine commercial. Richland Rose is heavily ruffled and can produce show spikes with many open. Rosita, one of my favorites, is a pastel beauty wonderful for florist work and a dandy show glad. The new Rosy Veil is like a Rosy Spic & Span and I predict it will be grown by the millions as soon as its good qualities are fully recognized. The older Andrena, Elmer's Rose, Edgewood and Traveler are all fine varieties and are here to stay.

DEEP ROSE — Hades, one of the giant glads, certainly will win at the shows. Aristocrat has vigor and great size and is one of the tallest. We certainly wish more varieties would have the growing habits of Aristocrat. Karen must be seen to be appreciated. It is distinguished by long flowerheads and wonderful keeping qualities.

LAVENDER — Francesca, a dream glad, is excellent in warmth of color and sheer beauty with good growing habits. If you do not grow Francesca, we strongly recommend that you do. It will make any list of "most beautiful". Lavender Giant from Holland is a clean light lavender. It performed very well in our trial gardens in 1955. Princess with its tall spikes should become a leading commercial and show glad. Tyrone has wonderful color and makes good spikes, opens about 5 blooms which seems to be its only fault.

PURPLE — Purple Burma, characterized by its decorative needlepoint and ruffled type florets, adds good clear color and you sure have one of the finest glads. For commercial use and also capable of winning Grand Championship spike, it's take your pick of King David and The Rajah. Both are different and we recommend growing both. Lustige Witwe with its bold blotch is most attractive and a favorite of visitors here.

VIOLET — Blue Goddess and Majolica, both different and outstanding, are big improvements to this class. If you can afford it they certainly will grace your garden. Salman's Sensation, tallest and most popular at the present time, is winning everything in its class wherever shown. Pfitzer's Sensation has a fine rich color and is one of our favorite varieties. Venus, a pale blue, is one of the healthiest varieties grown which is unusual for this class. It makes tall spikes with 8-10 open in the field. Violet Charm, the finest cut-flower in this section, is very popular and rightly so. Crater Lake looks like a strong grower that may prove a fine commercial.

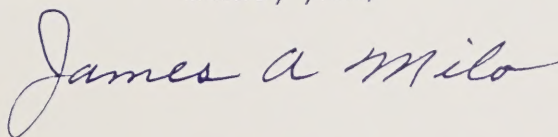

SMOKY — Tan Glo goes all the way as a show glad and can win Grand Champion of any show. Allah is a larger and richer Vagabond Prince, one of the most beautiful of all smokies. Prairie has unusual color and is one of the finest. Mesa Mist has an unusual grey coloring. This and Prairie are very popular with the ladies in making arrangements.

In the foregoing paragraphs we have endeavored to give you an honest, concise appraisal of some of the newer varieties as well as the best recent introductions. We often wonder whether non-productive pages (pages not containing price list) are of any value to a catalogue and its mission. To this there is no conclusive answer, but we have long felt that interesting and instructive reading, together with good pictures and service features are just as much a part of a successful catalogue as the actual price list itself. We certainly would like you to express an opinion as to whether or not we should continue chatterbox review each season.

We welcome your visits to Birchville Gardens to inspect the fields. We are especially anxious for you to inspect the bulb house in which we take special pride.

Our sincere wish is for you to find success and happiness in your 1956 gladiolus garden.

Sincerely yours,

JAMES A. MILO

1956 INTRODUCTIONS

FROM LEONARD W. BUTT

TWO WONDERFUL NEW RUFFLED MINIATURES

GREEN THUMB (Statuette x Sdlg.) (212)

Appropriately named, this brilliant new ruffled miniature reaches a new high in both color and form.

Buds are so beautiful, like rosebuds, and really green. Fully open, deep greenish yellow, deeper in the throat, a solid unmarked color without blemish. The general effect of an arrangement of **Green Thumb** or a corsage is that of the Lady Slipper Orchid — Beautiful!

Floret form is outstanding. Deeply ruffled and very heavy substance. Physical characteristics are as follows: Height 38"-40", 20" flowerheads, 16-17 buds, 7-8 florets open, 5 in color, straight spikes and excellent placement and attachment.

Green Thumb is for both the exhibitor and for arrangements. Its uses are unlimited. Thoroughly tested, it has won approval in Trial Grounds in Canada, England and United States (60 days).

LIFE (Bo-Peep x Twinkles) (252)

Fine, clear, light red with sharply contrasting yellow throat. This startling glad is a real beacon for all visitors to our gardens when in bloom.

Plants run 36-38" and the slender spikes are always straight. Runs 16-18 buds with 6-7 3" heavily ruffled florets open, well-placed and attached. This lovely ruffled miniature will steal your heart and for arrangements is a knockout. (70 days.)

CHEER (Larus 56) 462-75

Seedling No. B6-36-4. Parentage: Carona
x Burma.

This new introduction has been thoroughly tested as a seedling for several years. Last summer it was submitted for test to and received an approval from the Hybridizers' Guild. The 5¼" florets are a clean medium rose-red and their rich color plus the variety's excellent growing habits make this a fine commercial prospect. Under various trying conditions in 10 different areas in the United States and Canada this past summer the average spike was 55" tall with 18-19 buds on a 26" head and 6 large florets open. Under good growing conditions it will grow over 60" tall with over a 30" flowerhead. While Cheer has won a number of seedling awards at the shows its greatest potential appears to be as a cut flower due to its strong growth, outstanding color and ability to perform under hot or dry conditions.

Introductions

PALOMINO (Summerville 56) 417-80

(Stralia x Polynesie) (Seedling S-1-50)

Palomino is that rare glad that combines beauty with outstanding performance. Large and medium bulbs uniformly produce 56" spikes with 28" to 30" flowerheads and ample cutting stems. Six to nine 5" florets will open with two thirds of the remaining 22 or more buds in color. Bulb health is excellent and, while propagation is only average, the bulblets produced germinate pretty nearly 100% with no special treatment whatsoever. Florets are a soft apricot buff with a small orange spot in the throat and are lightly ruffled with raised midribs — texture is good.

In 1955 Palomino was shown in only four shows with the following results:

Haddonfield (So. Jersey)—Seedling Champion

E.N.Y. at Farmingdale, L.I.—Seedling Champion

E.N.Y. Award of Merit

N.J. State Show at Boonton—Seedling Champion

American Home Award

3 Spike Grand Champ.

Mountainview, N.J. Seedling & R.I.—Seedling Champ.

In addition it has been chosen to receive the 1955 N.J.G.S. Award.

Palomino won its first award in 1953 when it was Seedling Champion at the Burholme show in Philadelphia.

Mike Sherman writes: "Delighted to hear that you are introducing Palomino. In my trial gardens for the past two years it has been outstanding in every respect and I am confident you will hear similar reports from those whose good fortune it is to grow it."

FORSYTHIA

FROM CHAMPLAIN VIEW GARDENS

PATMOS (McRae 56) 586

A very beautiful rose-ash with brilliant rose throat. The color is soft and beautiful not harsh. Far better than Tan-Glo though may not hold so many open. Opens 8, 5½ to 6 inch, ruffled florets on a 20 bud spike with 5-8 showing color, 26 inch head, 5 feet or more tall. Good placement and attachment. Strong, straight stems. Good propagator. The smokies are not used much by florists, but Fr. McRae's florist uses Patmos even for weddings. At one wedding he even used it in the wedding bouquet.

ANY SIZE EACH \$1.00

BULBLETS 10 for \$1.00

GATES OF PEARL (McRae 56) 507

Though this is classified as cream it is really a light pink. It is creamy white strongly tinted pink. Instead of fading after cutting as most varieties do it deepens in color and gets much prettier. It is very beautiful and grand for any purpose. It grows 4½ feet tall and over, with 8 or more well placed and attached blooms open. The picture shows the form of floret with the long ruffled petals. A small basket at Binghamton this past season attracted a lot of favorable comment. A fine opener and will make a grand cut-flower variety.

This variety was supposed to be entered in the All American Trials last year but thru a fluke did not get entered. I am sure it would have been a winner as it is fully as good as the winners already selected. You can't miss on this one.

ANY SIZE EACH \$1.00

FALINE (Dirk Kroon 56) 210-

(Parentage: Betty Duncan x Marionette)

An outstanding mighty fine addition to the miniature class, a very beautiful round flaring light yellow with deeper yellow blending throat, slightly ruffled and will open 7 with 5 showing color on a well balanced formal forty inch 17 bud spike, substance is very good and foliage always green. Makes clean healthy bulbs and is an excellent propagator. We might say it's a miniature Prospector, one of the most beautiful of all varieties. Sure to be one of the outstanding introductions of 1956.

SPECIAL NOTE

This catalogue comes to you with our compliments. Each year we try to improve upon its attractiveness and give you the latest up-to-date information. But, due to increasing costs of labor and material, the expense of printing thousands of catalogues is becoming greater each year. Therefore, we must eliminate people who are merely catalogue collectors and those who have been forced to give up gardening. This is necessary if we are to practice economy, which is the basis of sound business. Therefore, if you like our catalogue and wish to continue receiving future copies, either send us an order or mail us a postcard stating you are still interested.

To our many friends and customers, who through their loyal patronage have made this catalogue possible, we extend our sincere thanks and appreciation.

HOW TO READ PRICES

At the end of the description of each variety appears prices for Large (L), Medium (M), and Small (S) Bulb. Bulblets (Blbt.) In some cases the letter has only one price after it meaning that is the price for one bulb, of that size and variety. For instance, under A. B. Coutts appears (L 1-.50) (M 1-.35) etc. This means that one Large bulb costs .50 cents, a medium .35 cents. Also that 8 bulblets cost .25 cents, etc.

Sometimes the base price is given for 2 or more bulbs, meaning that not less than that number is sold. For instance, Ace of Spade (L 1-.25) (M 2-.30) meaning that not less than 2 mediums are sold.

You may buy 10 bulbs of any size and variety for 8 times the single price and 5 can be bought at one-half the 10 rate.

It makes spikes up to 60 inches. Opens 6-8 on a 20 bud spike. Florets are firmly attached and well-placed. Propagation is very good.

Miniatures and Small Varieties

The popular trend toward miniatures is rapidly developing in leaps and bounds. There are probably several reasons for this but we think the most important is because miniatures are the perfect home arrangement flower.

Miniatures are unsurpassed in making up table decorations, bridal bouquets, cascades, corsages, mantle pieces and other dainty arrangements where larger varieties would be out of place.

For your convenience we are grouping these as we did last season.

Said to be an improved Corona. Has a picotee rose edging with a deep blotch. Opens 8-10 well-placed florets. Excellent growing habits and is highly rated in Canada. A worthy addition to the light rose class, a good show and commercial variety.

SIERRA SNOW (Harris 51) 400-80

Big tall white with cream throat. Capable of making tremendous exhibition spikes of champion caliber. Opens up to 12 ruffled florets of heavy texture. Has won all sorts of awards at shows.

SKYHIGH (Both 49) 312-85

A golden-yellow that opens up to 16 florets on a 26 bud spike. The florets are not large, but what it lacks in size is made up in its productive ability. Very tall novelty.

SKYLARK (Palmer 48) 442-80

Brilliant deep salmon-orange with midribs of bright yellow. Opens six or more on a 50 inch spike. An outstanding variety that has a lot of admirers.

SPIC & SPAN (Carlson 46) 444-80

A tall, ruffled pink that opens up to 10 florets with 8 more showing color. The placement is excellent and the spikes are tall and straight. It has won many championships and is a fine commercial. You can't afford to be without this one.

STERLING (Harris 50) 469-85

This ruffled, deep rosy-lavender grows up to 55". Opens 9 with 7 showing color on a 20 bud spike. The 5 inch florets are perfectly placed with good attachment. A new color break and one that we recommend. An excellent cut-flower for florist trade. Be sure and try Sterling.

From Fort Clark, No. Dakota

Thank you very much for all the nice extra bulbs and good count on ones ordered. I have had good success with your bulbs.

STORMY WEATHER (Barrett 47) 480-82

A grand, light-toned smoky that has been a favorite for many years. Smooth rosy-red with some tan or salmon tints and a creamy throat. 8-10 open on tall, straight, willowy spikes. An unusual color.

SWEET SIXTEEN (Fisher 51) 442-80

One of the very best cut-flower varieties we have. A tall true pink that is a 100% cutter of beautiful spikes. Opens 9 wide open florets. Here is a must for all cut-flower growers. Florists like the color of this glad.

THE RAJAH (Jack 51) 570-88

One of the best purple glads, a royal purple with no markings. Florets are large, round and ruffled and opens to 7 or more on tall spikes. A real show glad and one of my favorites.

THE ROAN (Pruitt 49) 590-85

An odd rosy red covered with fine silvery lines giving it a unique and distinctive appearance. Opens 5-7 huge very attractive blooms.

TRAILS END (Ficht 49) 562-85

Deep lavender-rose with a creamy yellow throat. Has 7-8 extra large frilled florets open on a medium spike. You certainly will call this one beautiful.

UHU (K & M 46) 482-85

A unique color that reminds me of a lobster before cooking. Uhu is a dusty brown and is a fine smoky. Stem is medium tall. Vigorous grower that never crooks. Opens 7 well-placed florets. This sells itself on sight.

UNCLE TOM (Salman 49) 454-90

Striking deep maroon opening 8 on a tall spike. This looks like one of the best in the dark shades. Try this one because I am sure you will like it.

VALDA (Barrett 51) 566-80

Huge, deep rose-lavender with better stretch and longer flowerhead than Elizabeth the Queen. It grows 50 inches tall and opens 8 florets on a 22 bud spike. This will rate as one of Barrett's best. Pictured in color on back page.

VANITY FAIR (Harris 51) 517-80

Heavily ruffled blush white with overlay of buff. Seven open on a tall straight spike of 20 buds with 30" flowerhead. Has been Grand Champion winner plus other top awards.

VENIDA (Milo 47) 460-88

Many of us glad growers believe Venida to be one of the most beautiful glads. It is a beautiful rose color shaded with lavender and has a big cream blotch. Grows 50-60 inches tall with up to 28 buds.

WAR PAINT (Kadel 47) 436-85

A scarlet that opens 10 medium-size florets on a 22 bud spike. It grows up to 55 inches tall and has a 27 inch flowerhead. Certainly the best in its class. Winner of Home Achievement Award medal and other top awards.

WHITE GODDESS (Roberts 48) 500-80

Creamy white that opens 7 heavily ruffled florets on a tall spike. This is a repeated show winner and has often made "best of show". Fast propagator which should make it a good commercial.

YANGTZE (Harris 41) 312-87

A deep empire yellow of good size. A first class grower that is very popular in Canada. This is one of the best low-priced yellows. Very fine.

YELLOW HERALD (K & M 47) 411-80

One of the most dependable early yellow cut-flowers. Opens 6-8 blooms on a tall spike. The 4½ inch blooms are firmly attached and well-placed. Certainly worth a try.

ASK THEM

When any one dishes up scandal
 Or whispers a tale in my ear,
 I listen perforce as a matter of course,
 It's stuff which one doubtless must hear;
 But when my informant has finished
 The gossip he came to disclose,
 I quietly say in a casual way,
 "Who told you about it?
 And where did **he** learn it?
 And how do you know that he knows?"

It's seldom the gossifs can answer
 A question as simple as that.
 They mutter a word about "Something I heard"
 Or "Well, it's just general chat."
 They hem and they haw and they stammer,
 They "guess" and they "think and suppose,"
 But, oh, they are wary indeed when you query,
 "Who told you about it?
 And where did **she** learn it?
 And how do you know that she knows?"

A scandal that's false and malicious
 Can stir up all manner of strife,
 And rumor unfounded has oftentimes hounded
 A man or a woman for life;
 Don't hurry to spread any gossip
 Regarding the high or the low;
 "They say!" Who are "They"? By what right do
 they say?
 "Who told them about it?
 And where did **they** learn it?
 And how do you know they know?"

GET THIS WONDERFUL
NEW BOOK ON GLADS!

Increase your pleasure, prizes and profits in glads by hundreds of valuable hints in **THE COMPLETE BOOK OF GLADIOLUS**—new book by Lee Fairchild, famous prize-winner, hybridizer and writer. (He won the grand champion spike at the Eastern International Show in the Summer of 1953.)

For years we've lacked an up-to-date book on gladiolus, but now Mr. Fairchild packs into his clear, non-technical pages the very latest data on growing, mulching, aiming for blue ribbons, propagating, dusting, spraying, hybridizing, fertilizing, and storing, illustrated with drawings, photos and tables to help any glad fan get the most out of his blooms. His long table of recommended varieties by size and color can save you many dollars and disappointments.

Whether you have only a few dozen spikes or grow glads by the thousands, you'll get far more out of this book than its modest price and I'm so sure of that statement that **I guarantee to refund your money** if you return the book unmarked in 10 days.

So order promptly to enjoy this delightful and practical book now and for years to come. **Send \$4.00 TODAY** and by return mail will come your 254-page **COMPLETE BOOK OF THE GLADIOLUS** at no risk to you.

Thrifty Buyers Collection

In 1955 this proved to be one of our most popular collections. So again this season we will offer a thrifty planting stock collection. Many are surprised at the size of bloom produced from these small bulbs and at the fine crop of large bulbs harvested in the fall. There is no cheaper or better way to get a large stock of name varieties than by buying this special. All are No. 5 or No. 6 size.
